

How to Turn on Hotspot Android

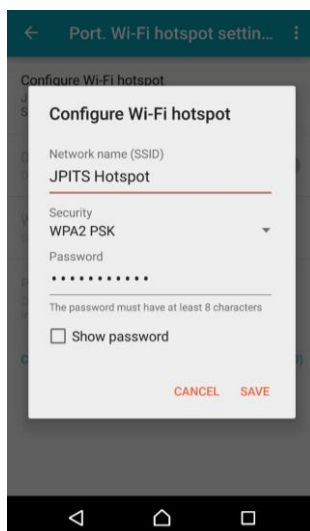

1. From the Home Screen, select the Settings menu. Tap More.

2. Select Wireless & Networks and then Tethering & portable hotspot.

3. Tap Portable Wi-Fi hotspot settings and you can edit the Wi-Fi network name, and choose a password

4. Once that is set up, you can now go to the device you wish to connect from via your Hotspot. You will need to enter the password you have just set up.
